PROJECTS

GEMINI CLONE | ReactJS

[Live Demo](#)

- Developed a responsive and dynamic Gemini AI clone using ReactJS, replicating core features.
- Integrated Gemini AI API to handle dynamic user inputs and generate appropriate responses.

Spanio | MERN stack

[Live Demo](#)

- Collaborated with a team of 4 to develop a comprehensive language learning platform using the MERN Stack, featuring interactive lessons, user authentication, progress tracking, and real-time chat support
- Designed front-end interfaces with React, built back-end APIs with Node.js and Express, integrated MongoDB for data storage, and deployed the application on hostinger.

EXPERIENCE

Thales-NOIDA, UP, India

[Certificate](#)

Intern, Sales

June 2023

- Developed a MERN Stack app to manage games, featuring real-time CRUD operations and a user-friendly interface.
- Designed front-end with React, implemented back-end APIs with Node.js and Express, and utilized MongoDB for data storage.

SwapIT (UI/UX Design)

[Live Demo](#)

- Designed a user-friendly and accessible interface, ensuring a modern and intuitive user experience.
 - Created wireframes and interactive prototypes using Figma, visualizing the user interface and workflow.
